The White Box Projekt is many things it is unlike anything you have ever seen. Think about your typical Black Box theatre. Now, think of those things upside down. Can you picture it? Are you curious? Come to the gallery and experience a hybrid artistic performance and the next steps for theatre art.

-Ingryd Pleitez-Echeverria
(Creative Collaborator/Performance Artist)

The White Box Projekt is an Experimental Collective Performance Creation. What does it mean to be a woman? Who is she? Where is she from and where is she headed? What is "culture"? Are we categorized by it? Come, see and interact with us, and let's search for answers.

- Cora Chunzi,
(Creative Collaborator/ Performance Artist)

The White Box Projekt is the project that consists of human sculpture live images derived from provocative and contrasting personas that we see in everyday. This theatrical exploration allows audience interaction which forces both the observed and the observers to think outside the box of the traditional theatre.
