

PRECAUTIONS

1. Avoid getting fingerprints, dust or smudges on the green side of the disc. This can cause interference during playback.
* Any foreign matter on the disc surface should be wiped clean with a soft dry cloth. Alcohol or C.D. Cleaner may also be used, however, no other cleaning agents should be applied to the disc surface.
2. Do not attach labels or protective sheets to either side of the disc.
3. Do not try to file, rasp or polish the edge to protect it from shocks.
4. Use a smear-proof, felt-tipped pen to write on the label (gold) side of the disc.
* Do not use a ball-point pen or any other hard-tipped writing instrument for this purpose.
5. The disc should never be exposed to excessive heat or humidity. Avoid any exposure to direct sunlight. If you move the disc from a cool place, dew condensation can occur.

THIS DISC CAN BE PLAYED BACK ON ANY COMPACT DISC PLAYER.
