AT THE UNIFORM NETTO CASH PRICE OF

**TWENTY FIVE GUINEAS;** or, with **CYLINDER FALL TWENTY SEVEN GUINEAS EACH**  
AMBOYNA, MAPLE, FRENCH WALNUT, EBONY, OR SATIN WOOD, TWO GUINEAS EXTRA.

The Royal Piano Forte, Compass, 6½ Octaves, Twenty five-Guineas.

The Royal Piano Forte, Compass 6½ Octaves, with Cylinder Fall, Twenty Seven Guineas.

D'ALMAINE & Co. request the attention of the Public to their Collection of PIANO FORTES. The peculiar merits and unrivalled capabilities of their Instruments, have excited the admiration of the most eminent Musical Professors of the present age, who on numerous occasions have borne the strongest testimonies to their excellence. Since the first construction of the Piano Forte, in 1760, the Instrument has been receiving progressive Improvements, not only by extending the Scale and enlarging the size of the Instrument, but by increasing the weight and durability of the Strings, strengthening the frame work and improving the mechanism of the movement, besides adding to the power and quality of the Tone, and increasing the delicacy and effectiveness of the Touch. D'Almaine & Co. have been unceasing in their endeavours to increase the capabilities and improve the qualities of all their Instruments. The Piano Fortes manufactured by them are distinguished by the following properties:—

**FIRST.** By the power and firmness of Tone. The vibration is prolonged and pure, thus rendering the Instrument every way calculated for expressive, as well as brilliant playing.

**SECOND.** By elasticity of Touch whether light or heavy; the combination of the two qualities of Tone and Touch are so rare and remarkable that D'Almaine & Co. feel confident that in this respect their Instruments cannot fail to please every performer.

**THIRD.** The facility of being tuned, and their being little liable to go out of tune, proceeds from the excellence of every material used in the construction of the Piano-Fortes of D'Almaine & Co, no expense being spared in the manufacture of the Instruments; the temperament when once fixed remains the same during a very long period, while the Treble and Base also continue true to the same pitch.

D'ALMAINE and Co. earnestly solicit the favour of a visit from intending purchasers to inspect their Royal Piano Fortes, manufactured in various woods to suit every description of furniture, at the extraordinarily low price of TWENTY-FIVE GUINEAS, in order to meet the requirements of a large portion of the Musical Public, and to supersede the spurious articles miscalled Piano-Fortes, advertised or otherwise offered for public or private sale. As an additional guarantee after their experience of upwards of half a century, the manufacturers append the following signatures of distinguished professors, which are but a few out of a large number, as also short extracts from the opinions of the Public Press on the Royal Piano-Fortes.

**PROFESSIONAL TESTIMONIAL RESPECTING THE PIANO FORTES OF D'ALMAINE & Co.**

We, the undersigned Members of the Musical Profession, having carefully examined the Royal Piano-Fortes manufactured by Messrs D'ALMAINE & Co., have great pleasure in bearing testimony to their merits and capabilities. It appears to us impossible to produce Instruments of the same size, possessing a richer and finer tone, more elastic touch, or more equal temperament, while the elegance of their construction renders them a handsome ornament for the library, boudoir, or drawing-room.
