PLAY WITH A RECORD!

It's Different! It's Fun! It's Educational!

Scandinavian Music

FAVORITE SCANDINAVIAN MUSIC, VOLUME I,

Now you can correct your rhythm, timing and reading with or without the help of a teacher. The arrangements are written simple, but effective, so the average student of accordion can enjoy the pleasure of playing with someone in their own home!

It has been proven that students who have used the music and record for education, have improved their playing considerably in just one week's time.

The music is written note for note as played on the record by accordionist Joe Morrelli, using effective, but simple basses with the pleasing melodies.

The folio contains six Scandinavian songs, three waltzes, and three schottisches. Such songs as New Norwegian Waltz, Stavanger Waltz, An Old Swedish Dance, Sunshine Schottische, Stockholm Schottische, and Norge Schottische.

Music or record is sold separately if desired.

The Record

Extended Play 78 R.P.M.

VMA-7801

With the popularity of the accordion today, this series has come into being. Never before have so many favorite Scandinavian songs been placed on one record at such a small cost to the purchaser. The record will play between 5 and 6 minutes per side on any standard 78 R.P.M. record player.

DUAL PURPOSE RECORDS

FOR DANCING or LISTENING—It will be noted that all selections on each side are played at the same tempo, with a two-measure pause between selections. The record may be played all the way through or, if desired, the needle may be lifted at the end of any one composition, if less than 6 minutes playing time is required. Each selection is complete in itself.

FOR STUDY—This record can be of constructive assistance to the accordion student. The compositions are available in a sheet music folio, and the written arrangements are note for note as played by Mr. Morelli on the record. This makes it possible for the student to study the music and "play along with the record" to improve his rhythm and expression. The student may play any one of the compositions separately by placing the needle on the desired band of the record; a widened groove before each selection indicates where to place the needle. Many accordion schools are using these records to further the progress of their students in ear-training, rhythm and phrasing and outstanding results have been achieved.

The music folio and record are available at your music store or direct from Empire Music Publishers, 624 Columbia Street, New Westminster, B.C., Canada.
