ACCIDENTS WILL HAPPEN!

For every kind of accident—cut, burn, scratch or scald, there is nothing known to medical science equal in value to Zam-Buk.

There is a reason for this superiority.

As soon as any injury to the skin occurs, the tissues are exposed to harmful germs which exist in thousands in the air. The skin is the covering which keeps those out of the blood. When therefore the skin is injured, the protective covering is removed and these germs enter. This is how festering, suppuration and blood-poisoning arise.

Now Zam-Buk's first office is that of an antiseptic. Immediately you apply it to an injury it kills all the germs in the wound, and all other germs settling upon it are killed instantaneously. Zam-Buk thoroughly cleans and protects all wounds and sores.

While certain of Zam-Buk's ingredients fulfil this office other ingredients soothe the damaged nerve tissue. This stops the pain and smarting. Apply Zam-Buk to a child's sore and note how soon the little one stops crying! Zam-Buk soothes pain wonderfully and for this reason alone, mothers should always keep it handy.

At the same time as these two offices are being carried out by Zam-Buk, still other ingredients go to work and build up new tissue to replace that damaged. This "building up" is done from the bottom of the wound or sore and is therefore permanent, leaving no scar; as is the case sometimes in wounds which are healed at the top first.

It will be seen therefore that Zam-Buk operates perfectly in three ways at the same time—as an antiseptic, killing all poison

germs; as a soothing balm, stopping the pain and smarting; and as an unequalled healer.

This is what might be called the theoretical side of Zam-Buk—a scientific definition of what really occurs when Zam-Buk is applied to a wound, a sore, or some skin disease. Those who have used it, know that in practice its action can be described by simply saying, "It stops pain, and it heals."

That is what you need for yourself, your friend or your family; and you will get nothing to meet your needs equal to Zam-Buk. If you have already used Zam-Buk, you will know this to be so. If you have not yet tested Zam-Buk we make you the following offer:

A GENUINE OFFER.

Write across the top of a piece of note paper the title of this music, "The Zam-Buk March." Then state that you would like to test Zam-Buk, and enclose a 1c stamp (to pay return postage). We will then mail you a free trial box of Zam-Buk. Address your application to Zam-Buk Co., Toronto, Ont.

THE GREAT HERBAL SKIN-CURE

You need a balm for that skin disease, that ulcer, that eczematous patch, that cold sore? Or perhaps you are one of the many thousands who suffer silently, yet acutely, from that terrible ailment, piles? If so, the balm you need is Zam-Buk. In proof of this, review the following eloquent facts:

WHAT MOTHERS SAY ABOUT IT:

Mrs. A. Hanley, Greenfield, Ont., says:—"My little boy had a sore on one of his ears and it spread to his face. I tried many things but nothing did any good until I tried Zam-Buk. This cured him and didn't leave a spot."

Mrs. Benjamin Hubley, of Goshen, N.B., says:—"I think very highly of Zam-Buk. My daughter Priscilla was terribly affected with Eczema in her head. We could not get it cured and she seemed to be all on fire with itching and burning. Her head was raw with sores. We heard of Zam-Buk and a course of this balm cured her completely."

Medical men admit Zam-Buk's great superiority.

Children who have once had Zam-Buk applied to their sores, ask for it again. They know it eases their pain!

In every country of the world, to which it has been introduced, Zam-Buk has become the most widely used home remedy. Intelligent and unlearned persons agree on its merits. Prof. Lascelles Scott, the great analyst, says of Zam-Buk, "I certify its entire purity and value for skin injuries and diseases." The other

week, an African chief said to a missionary, "Mi yebe cigbe aliga nana," meaning "I like best that green medicine."

Four years ago Zam-Buk was unknown in Canada. To-day druggists regard it as the leading staple in ointments!

Such is the verdict of the people and surely all this spells superiority! Zam-Buk is used—not because we say it is good, but because it has made good its own case in the homes of the people. It is "something different." Try it!

ZAM-BUK SAVED HER HAIR.

As soon as eczema, ringworm or sores appear on the head, it is the custom to cut off the hair: and many girls and women have by this means had to sustain loss of hair which was quite unnecessary had Zam-Buk been used.

Mrs. David Monteith, of 93 Bertrand Street, Norwood, Winnipeg, telling of her daughter's case, said:—"When seven years old my daughter contracted eczema of the scalp, and this broke out regularly for three years in succession. It would probably have been recurring yet each season, had it not been for Zam-Buk. The eczema first started with an outbreak of little red, watery pimples, which turned into large sores. We consulted a medical man, and tried lotions, powders, salves, and all kinds of preparations. While some of these gave a little relief, it was only for a time, and there was no permanent cure. At times the girl's scalp was entirely covered with these sores, which seemed worse at the back of the head."

"Each time the disease appeared her hair had to be cut off. When this had been done three times a friend suggested that, as other things had failed, I should try Zam-Buk, instead of again consulting a doctor and going through the old and ineffective programme. I acted on this advice, and obtained some Zam-Buk. Almost as soon as this was applied the child experienced relief. The itching and irritation seemed to be soothed, and in several places, after some days' treatment, there appeared marked signs of improvement. We continued with the Zam-Buk, and thought that as it was doing so well we would not this time cut off the hair."

"We kept on applying Zam-Buk, until in a few weeks it was very evident a complete cure was being effected. In the end all the sores were healed, the hair over the affected parts had grown again, and at the present time her scalp is healthy and quite free from every trace of sore or eczema. There has been no sign of recurrence of the disease so it is evident Zam-Buk has worked a permanent cure. It is such a splendid healer that no home should be without it."

Picture Machine Exploded in Face of Operator

While taking flashlight pictures in the Simpson House last evening Mr. E. McIntosh, of Toronto, formerly chef at the Benson House, Lindsay, had his face and head badly burned by the machine exploding. While about to take the picture Mr. McIntosh pulled the string that causes the machine to explode, but it did not work. He tried it several times and finding it would not work, walked over to the machine to see what was wrong, and while repairing it the machine exploded in his face. He was at once taken to the Ross hospital, where he now lies suffering intense pain. Mr. McIntosh would have probably lost his eyesight, but for the fact that he was wearing glasses. His mouth was standing open and his hand was at his face.

Mr. MacIntosh says:—"At the hospital I was kept masked night and day for five days. At the end of that time the burns were still very bad and the doctors would not hear of my returning to work. I knew if I could only get some Zam-Buk for the burns I would be back at work in quick time, because I had previously used the balm and knew what it would do."

"At last I left the hospital and went straight to a local store and bought some Zam-Buk. At the hotel I applied a Zam-Buk dressing and this cooled the burning pains and gave me quick relief. I kept on with the Zam-Buk treatment and returned to work. Within just one week after first commencing with the Zam-Buk treatment I might have defied anybody to detect where the burns had been, so splendidly did Zam-Buk heal the injury."

Mr. MacIntosh resides at 48 Humbert St., Toronto.

TO OUR MUSICAL FRIENDS

Every day you may see in the newspapers reports of cures worked by Zam-Buk, but have you yet tested it for yourself?

We would like you to do so at our expense.

Send us 1c stamp (to pay return postage) and mention this music and we will mail you a free trial box.
