We're Proud of You, Canada!

Yes, we have cause to be proud of Canada, because she has responded magnificently (and in a practical manner) to every spiritual impetus of the present time. Mothers are giving their sons, and the sons are giving their lives gladly and cheerfully for the cause of right and honor.

The call for men, munitions, food, money and loyalty that came from the battle front has been met and met nobly. Victory Bond issues are over-subscribed. Red Cross appeals are met with contributins piled up and running over. The order of the day everywhere is self-sacrifice for the sake of others.

O happy Canada—lofty, magical, majestic. We are indeed proud to be counted among your sons and daughters.

The teaching of Christ is responsible for the wonderful spirit of Canada and the other nations who are giving their life-blood for others. **The simple teaching of Christ is enough** for the spiritual development of the average man or woman. Yes, it is quite sufficient for action in this world and faith and hope in the next.

But there are hundreds of thousands with a spiritual development far above the average, and for these the next step is into the realm of occult teaching. These are the "mysteries of Christ," the secrets, the inner workings of nature that Christ hid in parables or never mentioned at all, because the world was too undeveloped to receive them.

The Theosophical Society exists for the purpose of studying and imparting this higher knowledge to those ready to receive it. Lectures can be heard or leaflets, books and information obtained from 22 College St., Toronto. One of its greatest and grandest teachings is that of RE-INCARNATION, and upon this idea I have written my new song

"AGES AND AGES AGO"

If you are interested, ask your music dealer to get you this number.

ANOTHER SONG YOU WILL LIKE IS

"There are Tears in Your Dear, Dear Eyes"
