

Economics from the Top Down

A blog about new ideas in economics and the social sciences

FIX

Call For Papers: Energy, Institutions and Society

I've been asked to create panels for the upcoming [International Conference on Thermodynamics 2.0](http://iaisa.org/) (<http://iaisa.org/>). The conference aims to bring natural and social sciences closer. It will take place at Worcester Polytechnic Institute, Massachusetts, USA from June 22-24, 2020.

I'm calling the panel(s) *Energy, Institutions and Society*. I'm looking for research that connects energy to the structure of human society. Both theoretical and empirical contributions are welcome.

If you are interested, please send a title and abstract to me at blairfix@gmail.com. The deadline is February 1, 2020.

📁 ENERGY

📌 CALL FOR PAPERS

Published by Blair Fix

I am a political economist interested in energy, inequality, and hierarchy. [View all posts by Blair Fix](#)
