

Blue Mountain Mill

Seventy-five years ago—five years before Confederation, the Dominion Linseed Oil Company Limited had its beginning at Baden, Ontario. Through four generations it has enjoyed the confidence and goodwill of the Canadian trade and public and its products have set an unwavering standard of high quality.

Several years ago, the FOOD DIVISION of the Company was established with separate mills at Owen Sound in the Blue Mountain Region of Ontario, for the processing and milling of Livingston's Cereals.

In appreciation of the many favourable comments on "Blue Mountain Mill", the Company's radio program, the theme song, written especially by Donald Heins, is published.

FUL-SOY BREAD is made with Livingston's Soy Flour under our exclusive formula by leading bakers.
