Director's Note

The first question people always ask me is: "Why The Vagina Monologues?" Truthfully, I don't know what drew me to this particular play. I've always been conscious of human rights, as well as women's rights and this play is sensitive to both. It is also important to note that *The Vagina Monologues* are not only for women. They will raise everyone's awareness of what is happening to women all over the world. You will laugh and you will be moved by all the history surrounding these emotional monologues. These true stories will hopefully inspire you and make you aware of all the women in your life.

If your vagina could talk, what would it say?

If your vagina got dressed, what would it wear?
