

**Economic
Growth
as
Power
Process
A
presentation

Is
economic
growth
a
miracle
of
the
free
market?
According
to
mainstream
theory,
growth
is
best
ensured
through

conditions
of
'perfect
competition'.
However,
economic
growth
is
tightly
correlated
with
the
concentration
of
power
in
the
hands
of
large
corporations.
Why?
The
capital
as
power
framework
provides
potential
answers
that
turn
mainstream
theory
on
its
head:
growth
seems
to
be
intimately
related
to
the

formation
of
hierarchy.
