The Master and Margarita

“Manuscripts don’t burn”

By Mikhail Bulgakov

Directed and adapted by
Aleksandar Lukac

Mikhail Bulgakov’s *Master and Margarita* is one of the most beloved novels from the Soviet era. It is considered to be the peak of Bulgakov’s work: mixing autobiographical material with serious accounts of Stalinist terror, the striving for freedom of thought, and a darkly humorous satire that turns into a fantastical discourse on courage. Although banned for decades, since its “discovery” it has spawned numerous adaptations for stage, television and film. We have used several sources to construct our own story in celebration of the artist’s relentless search for freedom and dignity.
