Microfilm Shelflist	23
Currently Received Newspapers	25

Introduction

The following is a list of newspapers available at Scott Library. Titles of newspapers are arranged by geographic area. An alphabetical title index follows, along with lists of microfilm titles in shelf order, and current newspapers received. The symbols shown below are used with dates in the entries to indicate the library's holdings for that title. The meanings of the symbols are given below with examples:

- | | | |
|--------|-----|---|
| (1976) | --> | The library's holdings are incomplete for the years inside the parentheses. |
| 1976 - | --> | The library's subscription is continuous from the date shown, and holdings will include current and future issues as they become available. |
| 1976. | --> | The newspaper is not currently received. The subscription was discontinued after the year shown. |
| 1976// | --> | The newspaper ceased to be published after the date indicated. |

Information is provided for both microform and paper holdings of newspapers. Microform holdings are located in the Microtext department, shelved according to title in unlocked cabinets. Paper holdings can be found in the Periodicals Room, shelved according to title. Newspapers, in paper or microform, are for use in the library only.

PLEASE NOTE: This list contains only the titles which have been classified as newspapers by Scott Library. There may exist some titles which are in newspaper format but have been classified by the library as periodicals. For additional information about locating and using the material listed in this guide, please consult the Reference staff.
