

# Open Conference Systems at York

October 28, 2010

Andrea Kosavic, Digital Initiatives Librarian

+ What is Open Conference Systems (OCS)?

# + OCS in a nutshell

- Open Conference Systems (OCS) is a Web publishing tool that will create a complete Web presence for your scholarly conference.
- OCS software is built on the OAI-PMH standard which helps to make conference proceedings more visible to web crawlers.
- OCS is available online free of charge <http://pkp.sfu.ca/?q=ocs> and enjoys a large user community.

# + OCS in a nutshell

- OCS was created by the Public Knowledge Project (PKP) in British Columbia
- The PKP is a partnership among the Faculty of Education at the University of British Columbia, the Simon Fraser University Library, the School of Education at Stanford University, and the Canadian Centre for Studies in Publishing at Simon Fraser University.

# + OCS at York University

The logo for the York Conference Server is a red square with the text "YORK CONFERENCE SERVER" in white, bold, uppercase letters. The text is arranged in three lines: "YORK" on the top line, "CONFERENCE" on the middle line, and "SERVER" on the bottom line.

YORK  
CONFERENCE  
SERVER

- The York University Libraries host OCS for use by the York Community
- This hosted version of OCS at York is called the York Conference Server  
<http://pi.library.yorku.ca/ocs/>
- The Libraries can help you set up your site and offer training and troubleshooting help

# + Synergies Canada

- The hosting of OCS by York University Libraries is part of a Canada-wide initiative to make social science and humanities research more visible and accessible online.
- This initiative is called **Synergies Canada**, which was granted a 12 million dollar grant from the Canadian Foundation for Innovation.

# + Synergies and beyond...

- The Synergies Canada website will be aggregating OCS conference metadata for conferences that are willing to participate.
- Synergies can increase the exposure of your conference proceedings to a much wider audience.

Supplementary Files can be uploaded in any file format and will be made available to readers in their original format. They can be shared with peer reviewers, if they do not compromise the blind review.

## + How is OCS currently being used at York?

- YCISS and Critical Disability Studies have used OCS to disseminate basic information about their conferences
- Prof. Colin Coates used OCS to share the papers presented at the Canadian-United States Borderlands Colloquium in April 2010 (Canadian–United States Borderlands is a joint course in history between York University and Arizona State University)

+ How do I find out more?
